WORKSHOP

ADVANCING EXCELLENCE IN CRITICAL CARE NURSING: EMPOWERING MINDS, LEADERSHIP, AND INNOVATION

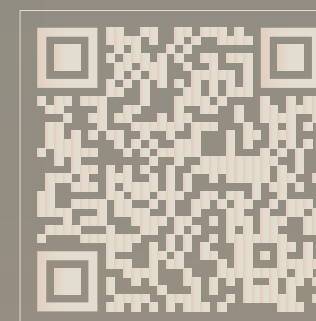

OBJECTIVES:

To provide critical care nurses with hands-on knowledge and practical tools to enhance clinical decision-making, leadership, and patient advocacy in critical care settings. The workshops aim to address key challenges in ICU environments by equipping participants with evidence-based strategies and innovative approaches to patient care. Through interactive sessions, participants will develop advanced skills in ethical decision-making, multidisciplinary teamwork, and effective communication, enabling them to improve patient outcomes and team dynamics. These sessions also focus on empowering nurses to take on leadership roles and advocate for quality improvement within their organisations.

TARGET AUDIENCE:

- Critical care nurses
- nurse managers
- faculty members
- students and healthcare professionals seeking advanced skills and insights in ICU care.

REGISTER NOW

PRE-REQUISITE:

- Participants should have basic knowledge in critical care nursing.

WORKSHOP TIMETABLE
